\_\_\_\_\_

---

---

Brief description of the materials to be used:

(Any major alterations to exterior of home will require two (2) complete sets of plans and specifications per Deed Restrictions)

---

---

---

---

---

---

---

---

I have read Section W (Approval of Plans, Architectural Control and Landscaping) of the Fairway Forest Deed Restrictions, understand the submission process and have attached the required documents for review of this project.

---

---

Signature(s) of Property Owner(s)

The following documents are attached:

- Plot Plan indicating improvements and measurements
- Two (2) sets of plans and specifications
- Proposed Construction Contract
- Proposed Exterior Paint Samples

\*\*\* Exterior paint colors - If you are painting the exterior of your house the same color as is presently on the house, you do not need a Board approval. However, if you are changing the exterior color of your house you must choose a color that is consistent with those currently used on houses within Fairway Forest. In this case you must present color swatches to the Board and await a written approval before commencing with your painting project.

**Please note that an approval from the Board does not supplant the Pinellas County permit needed for many projects nor does the County permit supplant the Association's approval which must be obtained in writing prior to the commencement of any project.**

Submit this form and all required documentation to the above listed address.
